

Brake Pads:

Brake pad wear will depend upon the severity of usage and riding conditions. The pads will wear faster in wet or muddy conditions. Inspect the pads visually during all regular service intervals to determine the pad wear. If either pad wears to the marking (1), both pads must be replaced.

CAUTION:

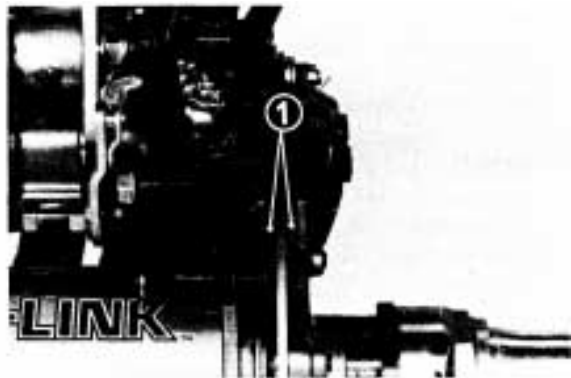

* *The front and rear brake pads are not interchangeable. When replacing brake pads be sure to install correct brake pads.*

(1) Marking

Other Checks:

Make sure there are no fluid leaks. Check for deterioration or cracks in the hose and fittings.
