

SAFETY PRECAUTIONS

For your initial riding practice, select a safe area, free of obstacles, with an even surface of dirt, sand, snow, etc. Avoid paved surfaces, as they are more difficult on which to learn to maneuver and will also significantly shorten the life of the tires.

The clothing most suitable for comfort and protection varies with factors of climate and hazards of the terrain to be traveled. This matter is therefore best left to the discretion of the individual rider. In all circumstances, however, we recommend wearing a safety helmet, and boots which rise at least above the ankles.

Shift the transmission into neutral before starting the engine. Allow sufficient warm up time before proceeding. Ride with your feet upon the foot pegs at all times. Under normal riding conditions, it is not necessary nor desirable to touch the ground for balance.

WARNING: IF YOUR FEET ARE REMOVED FROM THE FOOTPEGS TO TOUCH THE GROUND WHILE THE ATC IS IN MOTION, THEY COME IN CONTACT WITH THE REAR WHEELS.
