

BRAKE PAD WEAR (Type II)

Refer to the Safety Precautions on page 65 .

Brake pad wear depends upon the severity of usage, the type of riding, and road conditions. (Generally, the pads will wear faster on wet and dirty roads.)
Inspect the pads at each regular maintenance interval (page 68).

Front Brake

Check the wear indicator marks (1) on each pad.

If either pad is worn to the wear indicator mark, replace both pads as a set. See your dealer for this service.
