

TRANSMISSION OIL

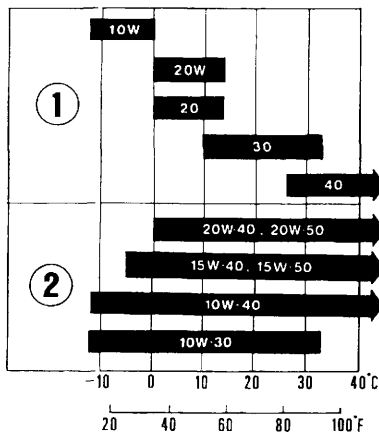

(Refer to the maintenance precautions on page 58)

Transmission Oil

Good transmission oil has many desirable qualities. Use only high detergent, quality motor oil certified on the container to meet or exceed requirements for API Service Classification SE, SF or SG.

Viscosity :

Viscosity grade of transmission oil should be based on average atmospheric temperature in your riding area. The following provides a guide to the selection of the proper grade or viscosity of oil to be used at various atmospheric temperatures.

(1) Single grade

(2) Multi grade
