(1) Lower level mark

⚠ WARNING

POTENTIAL HAZARD

Brake fluid contacting the skin or eyes.

WHAT CAN HAPPEN

May cause irritation.

HOW TO AVOID THE HAZARD

Avoid contacting brake fluid with the skin or eyes. In case of contact, flush thoroughly with water and call a doctor if your eyes were exposed.

Other Checks:

1. Make sure there are no fluid leaks.
2. Check for deterioration or cracks in the hose and fittings. Make sure there are no fluid leaks. Check the condition of brake hoses and fittings. If the hoses are worn or cracked, have them replaced by an authorized Honda dealer.
