

# Load Limits & Guidelines

---

## Load Limits

Following are the load limits for your ATV:

There are limits to how much weight can be carried on your ATV.

The following load limits apply to standard equipment only. Modifying your ATV, using non-standard equipment, or riding on terrain that is not flat and smooth could further reduce these limits.

**maximum weight capacity      110 kg (243 lbs)**  
(includes the weight of the rider, all cargo, and accessories.)

The weight of added accessories will reduce the maximum cargo weight you can carry.
