

Brakes

Rear Brake Lever Freeplay

LEFT HANDLEBAR

(1) rear brake lever

Inspection

1. Depress the rear brake pedal several times.
2. Measure the distance the rear brake lever (1) moves before the brake starts to take hold. Freeplay, measurement at the tip of the end of the brake lever, should be:
25-30 mm (1-1.2 in)
3. If necessary, adjust to the specified range.

The stop/taillights are activated by applying the parking brake. When using the parking brake, be sure to turn the ignition switch OFF to avoid discharging the battery.
