

Tires

The recommended tires for your Honda SXS are:

front	28X9.00R15 NHS MAXXIS MU9H
rear	28X11.00R15 NHS MAXXIS MU9H

When you replace a tire, remember:

Have the tire replaced by your Honda dealer, if possible.

If you have a tire professionally replaced at a non-Honda facility, we recommend that you have the work checked by your Honda dealer.
