

After adjustment, confirm the freeplay of the brake lever.

**NOTICE**

Do not turn the adjuster beyond its natural limits.

## Adjusting the Rear Brake Pedal Height

The stopper bolt is provided to allow adjustment of the pedal height.

1. Place your motorcycle on its side stand on a firm, level surface.
2. Loosen the lock nut and turn the stopper bolt.
3. Tighten the lock nut and check the freeplay.
